Bill Of Lading #:

88877

Folder ID : Sun Coast Resources. Inc. (Ho Olly Water	uston. TX)
Original - Shipper Provided Short Form	Straight Bill of Lading - Not Negotiable - Domestic
SHIPPED FROM:	
Sun Coast Resources, Inc.	11a) HOU-2803
6922 Cavalcade	11b)
Houston, TX 77028	11c)
(713) 336-4503	11c)

The property described below, in apparent good order, except as noted (content and condition of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this as meaning any person or corporation authorized to be in possession of the property under the contract) agrees to carry to its unusual place of delivery at said destination. This Bill of Lading is a receipt for goods; it is not of itself a contract of carriage. It is mutually agreed, as to each carrier of all or as to any said over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions contained in the applicable contract between shipper and carrier or intermediary.

For payment: Charges to be billed to Shipper or the "Billed to" party are set forth in the governing contract with Shipper. No charges other than those contained therein may be billed to Shipper or the "Billed to" party without prior written consent of Shipper. The extra copy of this Bill of Lading, numbered at the time of Shipperin, must be attached to the freight bill submitted to Shipper or the "Billed to" party and sent to:

#### CONSIGNED TO:

CARRIER:

CES Environmental Services, Inc.

Sun Coast Resources, Inc.

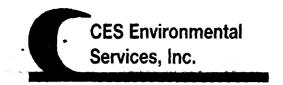

4904 Griggs Rd.

Houston, TX 77021

This is to certify that the product stated below are properly classified, described, packaged, marked and labeled and is in proper condition for transportation according to the applicable regulations of the Department of Transportation, if this Shipment moves between to ports by a carrier by water, the law requires that the Bill of Lading shall state whether it is "carrier's or shipper's weight."

Intermodal Certificate: All Information required by Federal Highway Administration regulations at 49 CFR 390 540 implementing the Intermodal Safe Container Act of 1992 is set forth on the face of this bill of lading. The shipper pame herein is the tendering party.

11c)

The property described below, in apparent good order, except as noted (content and condition of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this as meaning any person or corporation authorized to be in possession of the property under the contract) agrees to carry to its unusual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. This Bill of Lading is a receipt for goods, it is not of itself a contract of carriage, it is mutually agreed, as to each carrier of all or as to any said over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions contained in the applicable contract between shipper and carrier or intermediary

For payment: Charges to be billed to Shipper or the "Billed to" party are set forth in the governing contract with Shipper. No charges other than those contained therein may be billed to Shipper or the "Billed to" party without prior written consent of Shipper. The extra copy of this Bill of Lading, furnished at the time of shipment, must be attached to the freight bill submitted to Shipper or the "Billed to" party and sent to:

Released By: Shantall Carpenter Project Manager

Date:

05/04/2009

BY. ......

This Laboratory is NELAP (#87425) accredited.

I am the laboratory manager, or his/her designee, and I am responsible for the release of this data package. This laboratory data package has been reviewed and is complete and technically compliant with the requirements of the methods used, except where noted in the attached exception reports. I affirm, to the best of my knowledge that all problems/anomalies observed by this laboratory (and if applicable, any and all laboratories subcontracted through this laboratory) that might affect the quality of the data, have been identified in the Laboratory Review Checklist, and that no information or data have been knowingly withheld that would affect the quality of the data.

This report cannot be reproduced, except in full, without prior written permission of A&B Labs. Results shown relate only to the items tested. Samples are assumed to be in acceptable condition unless otherwise noted. Blank correction is not made unless otherwise noted. Air concentrations reported are based on field sampling information provided

Date Received: 05/01/2009 11:00

Sample Analysis
Project Address:

#### **Shantall Carpenter:**

We are reporting to you the results of the analyses performed on the samples received under the project name referenced above and identified with the XENCO Report Number 331566. All results being reported under this Report Number apply to the samples analyzed and properly identified with a Laboratory ID number. Subcontracted analyses are identified in this report with either the NELAC certification number of the subcontract lab in the analyst ID field, or the complete subcontracted report attached to this report.

Unless otherwise noted in a Case Narrative, all data reported in this Analytical Report are in compliance with NELAC standards. Estimation of data uncertainty for this report is found in the quality control section of this report unless otherwise noted. Should insufficient sample be provided to the laboratory to meet the method and NELAC Matrix Duplicate and Matrix Spike requirements, then the data will be analyzed, evaluated and reported using all other available quality control measures.

The validity and integrity of this report will remain intact as long as it is accompanied by this letter and reproduced in full, unless written approval is granted by XENCO Laboratories. This report will be filed for at least 5 years in our archives after which time it will be destroyed without further notice, unless otherwise arranged with you. The samples received, and described as recorded in Report No. 331566 will be filed for 60 days, and after that time they will be properly disposed without further notice, unless otherwise arranged with you. We reserve the right to return to you any unused samples, extracts or solutions related to them if we consider so necessary (e.g., samples identified as hazardous waste, sample sizes exceeding analytical standard practices, controlled substances under regulated protocols, etc).

We thank you for selecting XENCO Laboratories to serve your analytical needs. If you have any questions concerning this report, please feel free to contact us at any time.

Respectfully,

**Carlos Castro** 

Managing Director, Texas

This analytical report, and the entire data package it represents, has been made for your exclusive and confidential use. The interpretations and results expressed throughout this analytical report represent the best judgment of XENCO Laboratories. XENCO Laboratories assumes no responsibility and makes no warranty to the end use of the data hereby presented. Our liability is limited to the amount invoiced for this work order unless otherwise agreed to in writing.

Houston - Dallas - San Antonio - Austin - Tampa - Miami - Latin America - Atlanta - Corpus Christi

Carlos A. Castro, Ph.D., MBA Managing Director, Texas

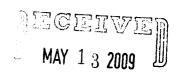

#### **Flagging Criteria**

- X In our quality control review of the data a QC deficiency was observed and flagged as noted. MS/MSD recoveries were found to be outside of the laboratory control limits due to possible matrix /chemical interference, or a concentration of target analyte high enough to effect the recovery of the spike concentration. This condition could also effect the relative percent difference in the MS/MSD.
- **B** A target analyte or common laboratory contaminant was identified in the method blank. Its presence indicates possible field or laboratory contamination.
- **D** The sample(s) were diluted due to targets detected over the highest point of the calibration curve, or due to matrix interference. Dilution factors are included in the final results. The result is from a diluted sample.
- E The data exceeds the upper calibration limit; therefore, the concentration is reported as estimated.
- F RPD exceeded lab control limits.
- J The target analyte was positively identified below the MQL and above the SQL.
- U Analyte was not detected.
- L The LCS data for this analytical batch was reported below the laboratory control limits for this analyte. The department supervisor and QA Director reviewed data. The samples were either reanalyzed or flagged as estimated concentrations.
- **H** The LCS data for this analytical batch was reported above the laboratory control limits. Supporting QC Data were reviewed by the Department Supervisor and QA Director. Data were determined to be valid for reporting.
- **K** Sample analyzed outside of recommended hold time.
- JN A combination of the "N" and the "J" qualifier. The analysis indicates that the analyte is "tentatively identified" and the associated numerical value may not be consistent with the amount actually present in the environmental sample.

BRL Below Reporting Limit. RL Reporitng Limit

* Outside XENCO's scope of NELAC Accreditation.

### **Material / Product Approval Letter**

Date 6/4/2008

Dear John McBride

Thank you for choosing CES Environmental Services, Inc. for your material / product recycling needs. The following material has been approved at our facility in Houston, TX. If the material received does not conform to the profile, then rejection or additional charges may apply.

CES Profile # 2802

Expiration Date 6/4/2010

61/4/2010 Oily 1/20

**Producer:** Sun Coast Resources, Inc.

Address: 6922 Cavalcade

Houston, TX 77028

Material / Product Information

Name of Material / Product Gassy water

**Container Type:** 

Detailed Description of Process Generating or Producing the Material / Product:

Gas and water mixture from removing water from underground gas storage units.

Color: varies Odor: slight hydrocarbon pH: 3-9

**Physical State:** 

Incompatibilities: oxidizers

Safety Related Data/Special Handling:

level C PPE

If you have any questions concerning this approval and/or the conditions, then please feel free to contact our office at (713) 676-1460.

Thank you,

Matt Bowman, President CES Environmental Services, Inc. DA ok

#### **C**ERTIFIED **A**UTOMATED TRUCK SCALE

CAT SCALE COMPANY P.O. BOX 630 WALCOTT, IA 52773 (563) 284-6263 www.catscale.com

#### THE CAT SCALE GUARANTEE

The CAT Scale Company guarantees that our scales will give an accurate weight. What makes us different from other scale companies is that we back up our guarantee with cash.©

#### "WEIGH WHAT WE SAY OR WE PAY"®

If you get an overweight fine from the state AFTER one of our CAT Scales showed a legal weight, we will immediately check our scale and we will:

(1) Reimburse you for the cost of the overweight fine if our scale is wrong, OR

(2) A representative of CAT Scale Company will appear in court WITH the driver as an expert witness if we believe our scale was correct.

#### IF YOU SHOULD GET AN OVERWEIGHT FINE, YOU SHOULD DO THE FOLLOWING TO GET THE PROBLEM RESOLVED:

Post bond and request a court date.

Call CAT Scale Company direct 24 hours a day at 1-877-CAT-SCALE (Toll Free).

IMMEDIATELY send a copy of the citation, CAT Scale Ticket, your name, company, address, and phone number to CAT Scale Company Attn: Guarantee Department.

*The four weights shown below are separate weights. The GROSS WEIGHT is the CERTIFIED WEIGHT and was weighed on a full length platform scale. All weights are guaranteed.

#### **Material / Product Approval Letter**

Date 6/4/2008

Dear John McBride

Thank you for choosing CES Environmental Services, Inc. for your material / product recycling needs. The following material has been approved at our facility in Houston, TX. If the material received does not conform to the profile, then rejection or additional charges may apply.

CES Profile # 2803

Expiration Date 6/4/2010

Producer: Sun Coast Resources, Inc.

Address: 6922 Cavalcade Houston, TX 77028

Material / Product Information

Name of Material / Product Oil and water mixture

Container Type:

Detailed Description of Process Generating or Producing the Material / Product:

Oily water from used oil collections.

Color: varies Odor: slight hydrocarbon

**pH:** 3-9

willy water

Physical State:

Incompatibilities: oxidizers

Safety Related Data/Special Handling:

level d ppe

If you have any questions concerning this approval and/or the conditions, then please feel free to contact our office at (713) 676-1460.

Thank you,

Matt Bowman, President CES Environmental Services, Inc. Sap

Hutchinson-Hayes International, Inc.( East Belt 11a) HOU-1623 3520 East Belt 11b) Houston, TX 77015 11c) (281) 216-2613 11c)

The property described below, in apparent good order, except as noted (content and condition of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this as meaning any person or corporation authorized to be in possession of the property under the contract) agrees to carry to its unusual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. This Bill of Lading is a receipt for goods; it is not of fixelf a contract of carriage. It is multivally agreed, as to each carrier of all or as to any said over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions contained in the applicable contract between shipper and carrier or intermediary.

For payment: Charges to be billed to Shipper or the "Billed to" party are set forth in the governing contract with Shipper. No charges other than those contained therein may be billed to Shipper or tine "Billed to" party without prior written consent of Shipper. The extra copy of this Bill of Lading, furnished at the time of shipment, must be attached to the freight bill submitted to Shipper or tine "Billed to" party and sent to:

Folder ID :

Hutchison Hays-East Belt

Olly Water

Original - Shipper Provided Short Form Straight Bill of Lading - Not Negotiable - Domestic

SHIPPED FROM:

P.O. 01835

Hutchinson-Hayes International, Inc.( East Belt

11a) 1623

3520 East Belt

11b)

Houston, TX 77015

11c)

(281) 216-2613

11c)

The property described below, in apparent good order, except as noted (content and condition of packages unknown), marked, consigned, and destined as indicated below, which said certier (the word carrier being understood throughout this as meaning any person or corporation authorized to be in possession of the property under the contract) agrees to carry to its unusual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. This Bill of Lading is a receipt for goods; It is not of itself a contract of carriage, it is mutually agreed, as to each carrier of all or as to any said over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions contained in the applicable contract between shipper and carrier or intermediary.

For payment: Charges to be billed to Shipper or the "Billed to" party are set forth in the governing contract with Shipper. No charges other than those contained therein may be billed to Shipper or the "Billed to" party without prior written consent of Shipper. The extra copy of this Bill of Lading, furnished at the time of shipment, must be attached to the freight bill submitted to Shipper or the "Billed to" party and sent to:

## Waste Pre-Acceptance/Approval Letter

Date 12/7/2005

Dear Robert Hackett

Thank you for choosing CES Environmental Services, Inc. for you waste disposal and/or recycling needs. The following waste stream has been approved at our facility in Houston, TX. If the waste received does not conform to the profile, then rejection or additional charges may apply.

CES Profile # 1248

Generator: Hutchinson-Hayes International, Inc.

Address: 3520 East Belt

Houston, TX 77015

#### **Waste Information**

Name of Waste: Process Water TCEQ Waste Code #: CESQ1132

Container Type: Truck

**Detailed Description of Process Generating Waste:** 

Recovery of water from glycol / water mixtures and rinsing operations

Color: Clear

Odor: None

pH: Neutral

Physical State: Liquid Incompatibilities: none

Safety Related Data/Special Handling:

No

If you have any questions concerning this approval and/or the conditions, then please feel free to contact our office at (713) 676-1460.

Thank you,

Matt Bowman, President CES Environmental Services, Inc.

Is this	s material a wastewater or wastewater sludge?   YES   NO
It 'Ye	es', complete this section.
PLE	ASE CHECK THE APPROPRIATE BOX. IF NO APPROPRIATE CATEGORY, GO TO THE NEXT PAGE.
<u>Metals</u>	Subcategory: Subpart A
	Spent electroplating baths and/or sludges  Metal linishing rinse water and sludges  Chromate wastes  Air pollution control blow down water and sludges  Spent anodizing solutions  Incineration wastewaters  Waste iquid mercury  Cyanid >-containing wastes greater than 136 mg/l  Waste acids and bases with or without metals  Cleaning, rinsing, and surface preparation solutions from electroplating or phosphating operations  Vibratery deburring wastewater  Alkaling and acid solutions used to clean metal parts or equipment
Oils Su	bcategory: Subpart B
	Oil-water emulsions or mixtures Lubricants Coolan's Contair inated groundwater clean-up from petroleum sources Used petroleum products Oil spil clean-up Bilge water Rinse/wash waters from petroleum sources Intercej for wastes Off-spelification fuels Underg ound storage remediation waste Tank clean-out from petroleum or oily sources Non-collact used glycols Aqueous and oil mixtures from parts cleaning operations Wastewater from oil bearing paint washes
<u>Organi</u>	ics Subvategory: Subpart C
	Landfill leachate  Contam nated groundwater clean-up from non-petroleum sources  Solvent bearing wastes  Off-specification organic product  Still bot oms  Byproduct waste glycol
	Wasternates from maint weather

Wastew iter from adhesives and/or epoxies formulation Wastew iter from organic chemical product operations Tank clean-out from organic, non-petroleum sources

⁽¹⁾ If the waste contains oil and grease at or in excess of 100 mg/L, the waste should be classified in the oils subcategory.

#### Dec-07-05 13:44

(2)		waste contains oil and grease less than 100 mg/L, and has any of the pollutants listed below in concentrations in excest values listed below, the waste should be classified in the metals subcategory.
	Cadm	ium: 0.2 mg/L
	Chron	nium: 8.9 mg/L
	Coppe	er: 4.9 mg/1.
	Nicke	l: 37.5 mg/1.
(3)		waste contains oil and grease less than 100 mg/L, and does not have concentrations of cadmium, chromium, copper, of above any of the values listed above, the waste should be classified in the organics subcategory.
	⊏	Metals Subcategory
		Oils Subcategory
		Organics Subcategory

#### **SECTION 11: Additional Instructions**

If you cannot determine the correct subcategory in Section 9 and you did not furnish data for the concentration of Cadmium, Chromium, Copper. Nickel, and Oil and Grease, CES will send offsite to a commercial laboratory a sample to determine these concentrations. This will be prior to acceptance. The generator will be responsible for the cost of the analysis.

That is the same question I was asking my self. They sent a guy out last month when we all spoke to pick up the containments the we were all speaking of and I told the driver that they had ALL READY BEEN PICKED UP the ones that were not ready are there's. And the are still sending e-mails about them.

I was checking to see if the spill guards are ready for pick up? This was from an e-mail from today. So Please some one tell me what's going on. This is getting pretty old, paying for containments that we don't have. So far around \$2,000. What do yall need me to do.

Ace Firth Dispatcher

Rain for Rent - Branch 17 2712 Battleground Rd. LaPorte, TX 77571 281-479-4500 - phone 281-479-4343 - fax afirth@rainforrent.com

Thanks,

James Pharms

**Jennifer** 

I sent a man over to your place last month when we talked and we were told they were not ready for pick up. Let me know what I can do.

We are still being charged rent for this pad – I thought we had resolved this last month – can you double check the validity of this invoice please?

Thank You!

James,

Have all the containments been picked up?
We are being billed (again) this month!
I was told that we called all off on January 2nd

**Good Morning** 

We are being charged rental for the containment pad # 255372 – these were asked to be taken off rent on January 2nd.
